- MM 33 right with tilting device
Part No.: 00-42-103-0000
- MM 33 left with tilting device
Part No.: 00-42-104-0000

Accessories

- Additional Z-axis stop
Part No.: 00-45-201-6000
- Magnetic stand M 1
Part No.: 00-49-901-6000
- Other accessories on request

The MM 33 is a compact micromanipulator for manual movement in three axes (X, Y, and Z).

The scales mounted on its guide ways allow read off of the coarse adjustment with an accuracy of 0,1 mm. The additional fine adjustment is operated by turning the micrometer screw, the read off accuracy is 1/100 mm.

Since all control knobs are mounted in line on the rear (not on the side), a number of user friendly MM 33 manipulators can be set up right next to one another.

For the purpose of avoiding that the Z-axis will descend when working with weighty loads (drift), there is an optional break (Z-axis stop) available.

Travel range:	X-axis	37 mm
	Y- axis	20 mm
	Z-axis	25 mm
	fine adjustment	10 mm

Weight : 650 g
